

RockEnroll is a web-based enrollment system that allows employees to electronically enter data into a universal medical application. The program in turn downloads the data into each medical carrier's form thus eliminating the need for multiple enrollment applications. The employee's information is portable, HIPAA-protected, and saved in a secure site.

Brokers love RockEnroll!

RockEnroll gives brokers an advantage over the competition by increasing opportunities to sell instead of spending valuable time tracking down missing information or trying to decipher illegible handwriting. Perfect census data is then created in a complete and legible format. Let RockEnroll take the hassle out of shopping carriers for your clients.

Employers love RockEnroll!

With RockEnroll, benefits administrators can electronically monitor the progress of each employee's enrollment process. It eliminates the need for multiple carrier applications during the prescreen process. Human resource administrators will thank their agent for providing such an easy solution to a cumbersome task.

Employees love RockEnroll!

RockEnroll eliminates the need for employees to fill out multiple applications when their employer is shopping for health coverage. With RockEnroll, the employee's electronic file is portable and removes required re-entry of data in consecutive years. This process reduces duplication of efforts by keeping a running log of health conditions for future reference. Data is more private than paper applications. And electronic signatures with RockEnroll are accepted by most carriers.

Carriers love RockEnroll!

RockEnroll eliminates human error and allows the medical carriers to receive HIPAA-secure, accurate and legible data. No more missing information on employee applications! Underwriting guidelines are enforced at the application point and follow up is rarely needed.

EVERYONE loves RockEnroll!

With RockEnroll, the prescreen and enrollment process is faster and more streamlined!

With RockEnroll, the data is cleaner and more accurate!

With RockEnroll, underwriting and processing turnaround times are decreased!
